

FHI 360 Nepal
Vacancy Announcement
(Re-advertisement)

FHI 360, an international NGO, requests applications from qualified individuals to work as 'Consultant – KP services' to assess the current HIV treatment, prevention, care and support services implemented by Meeting Targets and Maintaining Epidemic Control (EpiC Nepal) for MSM, MSWs and TG people in Nepal.

Consultant

This position will be responsible to assess the current gaps on innovative approaches implemented by EpiC Nepal such as Index testing, pre-exposure prophylaxis and HIV treatment and viral load services among key populations and priority populations of Nepal.

The position will work closely with the implementing partner agencies (IPs) in coordination with EpiC Nepal team at country office. S/he will also coordinate with local implementing partners for required support.

Qualification

- SEE/SLC pass, preferably 10+2 or intermediate level
- Good report writing skill/experience in English
- Previous experience working in HIV related work for community
- Willing to travel in the districts

Interested candidates are requested to send a cover letter, updated CV with proposed consultancy daily rates and list of two references by May 25, 2022 to GPO Box: 8803, Kathmandu, Nepal or Nepal.recruitment@fhi360.org.
