

## **Assignment: Shock Responsive Social Protection Training**

### **Terms of Reference (ToR) PR44905**

#### **Background information/context**

Save the Children is the leading global independent organization for children. Save the Children believes every child deserves a future. Around the world, we work every day to give children a healthy start in life, the opportunity to learn and protection from harm. When crisis strikes, and children are most vulnerable, we are always among the first to respond and the last to leave. We ensure children's unique needs are met and their voices are heard. We deliver lasting results for millions of children, including those hardest to reach.

The climate crisis is affecting children and future generations, while they are not responsible. The climate crisis is an intergenerational child rights crisis, and the greatest threat to children's survival, learning and protection. Without addressing the climate crisis head on we will not achieve the Sustainable Development Goals, especially for the most marginalized and vulnerable children and their families. As the biggest independent child rights organization, Save the Children has a unique role in working for the legitimacy and power of children's voices and their leadership in the climate movement.

Therefore, we, aim to empower and support children – especially the most marginalized children who are disproportionately affected by climate change - to be part of the solution and influence the decisions by national, provincial and local leaders that will affect their lives today and tomorrow.

We do whatever it takes for children – every day and in times of crisis – transforming their lives and the future we share.

**Our vision:** A world in which every child attains the right to survival, protection, development, and participation.

**Our mission:** To inspire breakthroughs in the way the world treats children, and to achieve immediate and lasting change in their lives.

**Our values:** Accountability, ambition, collaboration, creativity, and integrity.

We are committed to ensuring our resources are used as efficiently as possible, to focus them on achieving maximum impact for children.

#### **Shock Responsive Social Protection:**

Need of Shock Responsive Social Protection is realized in Nepal especially after the earthquake 2015 in Nepal. The government has committed for the implementation SRSP in its 15<sup>th</sup> national plan and its national social protection framework (draft). Both documents have mandated to support for development partners and civil societies to materialize the concept of SRSP.

Save the Children Nepal Country has pledged to contribute for advancement of SRSP that has been reflected in its Country Strategy Plan (2022- 2024).Very recently Save the Children Nepal CO has developed the SRSP policy brief which will be published soon. Nepal Country Office is now in need to build its capacity to SCI staff and partner on SRSP. In this context Save the Children Nepal Country Office is looking for a resource person who can facilitate the SRSP training.
