SCHEDULE

SAVE THE CHILDREN SUPPLIER SUSTAINABILITY POLICY

PART 1 - INTRODUCTION

SAVE THE CHILDREN'S VALUES: Save the Children's vision is a "world in which every child attains the right to survival, protection, development and participation". Our values are *creativity, accountability, integrity, collaboration, and ambition*. These serve as overarching values to which suppliers of goods and services to Save the Children are expected to adhere.

REFERENCE: International Standards, Conventions, and Principles such as the *UN Declaration on Human Rights* and other core Human Rights Treaties, including the *UN Convention on the Rights of the Child* and the *International Labour Standards on Child Labour & Forced Labour* (namely 138 and 182) are the foundations on which much of this Policy is based. Therefore, it is Save the Children's expectation that any supplier will adhere to these principles.

INTERPRETATION: The [Global Compact](#)¹ ("Compact") is a voluntary corporate citizenship community that sets the universal social and environmental principles, to meet the challenges of globalisation (a key foundation for the Compact is the *Guiding Principles on Business and Human Rights*). Save the Children encourages all suppliers to participate in the Compact. This policy addresses the issues included in the Compact in the areas of human rights, labour, environment and anti-corruption, and interpretation of this Policy should be undertaken in a manner consistent with the Compact.

PART 2 - SCOPE OF APPLICATION

- The provisions of this Policy set forth Save the Children's expectations for suppliers that are registered with Save the Children, or with whom it does business.

- Suppliers will be required to sign a declaration of compliance in all bid submissions and supply contracts. **Save the Children's aim is to guide its suppliers over the long term to meet these standards. Those who will not be able to demonstrate their goodwill, may see their supply relationship called into question.**

PART 3 - CONTINUOUS IMPROVEMENT

- The provisions set forth in this Policy provide the minimum standards expected of suppliers.
- In addition, Save the Children expects suppliers to strive to exceed international and industry best practices and to ensure that their own suppliers and subcontractors aim to do the same.
- Save the Children recognizes that reaching some of the standards established in this Policy is a dynamic rather than a static process and encourages suppliers to continually improve their operations accordingly.

PART 4 - MANAGEMENT, MONITORING AND EVALUATION

Background on Save the Children

Save the Children believes every child deserves a future. In Nepal and around the world, we give children a healthy start in life, the opportunity to learn and protection from harm. We do whatever it takes for children – every day and in times of crisis – transforming their lives and future we share.

Save the Children is the leading global independent organisation for children. Around the world, we work every day to give children a healthy start in life, the opportunity to learn and protection from harm. When crisis strikes, and children are most vulnerable, we are always among the first to respond and the last to leave. We ensure children's unique needs are met and their voices are heard. We deliver lasting results for millions of children, including those hardest to reach.

We do whatever it takes for children – every day and in times of crisis – transforming their lives and the future we share.

Our vision: A world in which every child attains the right to survival, protection, development and participation.

Our mission: To inspire breakthroughs in the way the world treats children, and to achieve immediate and lasting change in their lives.

Our values: Accountability, ambition, collaboration, creativity and integrity.

We are committed to ensuring our resources are used as efficiently as possible, in order to focus them on achieving maximum impact for children.

Background information of the KIRAN project

KIRAN project's vision is that the children from the most deprived and marginalised families are educated, protected and their families are economically resilient. It will be achieved through improved food security, income generating opportunities and expanded coverage of social protection services to the parents and caregivers, and improving the access of children, especially those who are out of school, to quality basic education through various means such as Alternative Education Programs (AEP), School at Home, supporting them with bursaries until their parents are capable of earning through project promoted improved livelihood opportunities etc. Similarly, the project intends to assure the child protection services for children who are the most vulnerable and at risk of child labour. For this project will strengthen the capacity building of child protection structures, child clubs and their networks. Para social workers, the trained volunteers will be mobilised to implement the Steps to Protect common approach to support vulnerable children and youths to minimise the (risk of) child labour/child migration for work. Their parents will be strongly encouraged in joining the project promoted livelihood interventions. Lastly, the project will focus in strengthening local government's capacity on integrated information management and planning related to the sectors like education, child protection, livelihoods, climate change and disaster risk reduction. Women and children's capability to do climate change analysis and accordingly advocate with local
