

VACANCY ANNOUNCEMENT

Nick Simons Institute (NSI) is an organization with a mission to innovate solutions in rural healthcare – through training, hospital support and advocating for healthcare workers with the government of Nepal since its establishment in 2006. NSI's main spheres of work has been to provide appropriate Trainings to the rural healthcare workers, Hospital Support Program (HSP) and Research, Advocacy and Monitoring (RAM) towards enhancing rural healthcare.

Under the Training program NSI facilitates training of those healthcare cadres most likely to have impact in rural institution through different 22 training sites. Likewise, Curative Service Support Program (CSSP) under the HSP is being implemented into 48 different level hospitals across the country whereas HSP is implemented into 97 different level hospitals. RAM targets changes in government policy including incorporation of NSI's programs.

Furthermore, NSI has been the solo counterpart of Nick Simons Foundation International (NSFI), NY USA and jointly works in the programs related to strengthen the skills of healthcare workers, improve health services available to remote and rural communities, and improve the operation of district-level hospitals, primary health centers and health posts in rural area. As the programs grow, to have smooth operation of its daily activities NSI is looking for the suitable Nepalese citizens the following positions in its center office in Lalitpur.
