

FHI 360 Nepal Vacancy Announcement for Consultants

FHI 360, an international non-governmental organization (NGO), requests applications from qualified individuals under the United States Emergency Plan for AIDS Relief (PEPFAR)- and the United States Agency for International Development (USAID)-supported Meeting Targets and Maintaining Epidemic Control (EpiC) Nepal.

1. Consultant - HIV viral load testing and reporting at National Public Health Laboratory

Key Responsibilities:

The consultant will be supporting National Public Health Laboratory with routine HIV testing, viral load testing, data recording, reporting, and quality management-related activities.

Qualifications:

M. Sc. Clinical/ Medical Microbiology registered in Nepal Health Professional Council with a minimum of one year of experience in molecular testing and experience in working in HIV-related activities will be prioritized.

2. Consultant- Advocacy for client-centered services stigma

Key Responsibilities:

The consultant will be responsible for advocacy for client-centered services and stigma and discrimination reduction at national, provincial, and local levels.

Qualifications:

10+2 or equivalent with extensive experience in HIV programs at the national level with a minimum of five (5) years of experience and working with key populations and the PLHIV community will be an added advantage. Knowledge of federalism and experience in advocacy of HIV programs will be preferable.

How to Apply:

Interested individuals are requested to send a cover letter, updated CV with proposed consultancy daily rates, and a list of two references by May 25, 2022, at Nepal.recruitment@fhi360.org.

Although the deadline is May 25, 2022, we are immediately starting the screening process so interested and qualified candidates are encouraged to apply as early as possible.
